

## CHAPTER 3

### SECTION 1.3

## LASER SURGERY

Issue Date: September 12, 1986

Authority: [32 CFR 199.4\(c\)\(2\)\(i\)](#)

---

#### I. DESCRIPTION

Surgery using a laser (Light Amplification by Stimulated Emission of Radiation) device instead of conventional surgical tools, such as scalpels.

#### II. POLICY

A. Laser surgery may be cost-shared to the same extent as conventional surgery when the device being used has been approved by the FDA.

#### III. EXCLUSIONS

Laser surgery may not be cost-shared for surgical procedures otherwise excluded under TRICARE, including:

- A. Pain relief, biostimulation;
- B. Noncovered surgical services, such as removal of tattoos;
- C. Arthritis or low back pain;
- D. Corneal sculpting;
- E. Body sculpting.

- END -
